SUMMARY

Custom Software Engineer with 2.8 years of experience designing and delivering Python applications, REST APIs, backend services, data models, and automation solutions across cloud contact center, AI-driven, CRM, and web platforms. Proficient in Python, FastAPI, Django, Flask, SQL, MongoDB, PostgreSQL, REST API development, authentication and authorization, AWS services, CI/CD, testing, and production troubleshooting. Familiar with AI, Machine Learning, LangChain, and LangGraph, with experience translating business requirements into maintainable software solutions, collaborating across teams, and owning backend features through development, testing, deployment, and production support.

TECHNICAL SKILLS

Languages: Python, SQL, JavaScript (ES6+), TypeScript, HTML5, CSS3

Backend & Web: FastAPI, Django, Flask, REST APIs, Jinja2, serverless-http

AI & ML: AI, Machine Learning, LangChain, LangGraph

Databases: MongoDB, PostgreSQL, Neon DB, Prisma

Auth & Security: JWT, bcrypt, RBAC, ACL, Clerk

Cloud & DevOps: AWS, Amazon S3, Vercel, Linux, GitHub Actions, CI/CD, DevOps

Software Engineering: Agile, Scrum, API Design, Application Development, Requirements Analysis, Code Review, Debugging, Unit Testing

Testing & Tools: Postman, Jest, Git, GitHub, VS Code

Integrations: Twilio, GitHub API

Frontend: React.js, Next.js, Tailwind CSS

WORK EXPERIENCE

Software Engineer • CA One Tech Cloud Inc.

Apr 2026 – Present | Bengaluru, India

- Designed and built Python backend automation for Convoso, processing 10,000+ call recordings monthly across recovery, S3 storage, and metadata workflows. Owned the recording recovery system from design through deployment, reducing manual intervention and improving reliability.
- Investigated and resolved production issues across backend workflows, optimized storage and data-processing operations, and validated deployments through testing and production troubleshooting.

Key Projects:

CONVOSO — Cloud Contact Center Platform

Python, FastAPI, AWS, Amazon S3

- Developed Python backend services for lead routing, recording management, data processing, and cloud-based contact center operations.
- Built recording-recovery and metadata-sync workflows handling 10,000+ recordings/month, improving data consistency, reliability, and system performance.

Software Engineer • Mantra Technologies

Feb 2024 – Mar 2026 | Hyderabad, India

- Designed and delivered Python backend features across four production applications in Agile/Scrum environments, collaborating with frontend teams on requirements, API contracts, and data models.
- Developed clean and maintainable REST APIs with RBAC/ACL authorization, optimized application workflows, performed endpoint testing and debugging, and contributed to production-ready software delivery.
- Managed AWS and Vercel deployments, GitHub Actions CI/CD pipelines, and Linux-based development workflows while supporting application releases and troubleshooting.

Key Projects:

AI Bull — AI-Powered Trading Platform

FastAPI, Jinja2, Python, MongoDB

- Engineered back-testing and portfolio import workflows for validating trading strategies against historical market data.
- Built backend logic for stock and mutual fund screeners with dynamic filtering and data aggregation across 1,000+ financial instruments.

CRM.io — AI-Driven CRM System

FastAPI, Jinja2, Python, ACL, Twilio, MongoDB

- Built Python REST APIs for Contacts, Tasks, Documents, and Telephony modules, supporting core CRM business workflows.
- Integrated custom telephony services and Twilio, handling call routing, session management, and webhook processing.
- Implemented granular ACL and role-based permissions to secure API-level data access across multiple user tiers.

PERSONAL PROJECTS

MyContacts — RESTful Contacts API / Contact Management App

Python, FastAPI, MongoDB, JWT, bcrypt, serverless-http

JS Studio — Online JavaScript Playground

Next.js, GitHub API, Vercel, GitHub Actions, Jest

AnyScrum — Project Management Platform

Next.js, Neon DB, Prisma, Clerk, Vercel

EDUCATION & CERTIFICATIONS

B.Tech — Electrical & Electronics Engineering

2019 – 2023 | GPA: 7.73 / 10

Srinivasa Ramanujan Institute of Technology, Anantapur

- Agile Methodology Virtual Experience Program — Cognizant (Oct 2022)
- Python Programming Online Training — APSSDC (May–Jun 2021)
